

Who We Are

CAPITAL CONSTRUCTION SERVICES

The merger of MWH Global with Stantec in 2016 formed an ENR Top 10 ranked design, engineering and construction firm with approximately 22,000 people working in over 400 locations. Their construction brands and services have been consolidated under Stantec Construction Group.

We share a commitment to advance the quality of life in our communities around the world while being a leader in alternative project delivery.

What We Do

FULL SERVICE CAPITAL CONSTRUCTION

Capital Construction Services is a program-structured solution to support all phases of large, campus-based, corporate capital investment initiatives. Everything from painting a wall to building a new industrial facility can be managed together in one place, executing hundreds or even thousands of projects per year. With our large-project and program management expertise, we make sure your projects are well-managed so you can focus on your core business.

We are

- A unique, integrated, full-service capital construction services provider
- Enterprise-wide program management

Stantec Construction Group provides

- Cost transparency
- Collaborative decision-making and teamwork
- Streamlined design and construction services
- Consistent quality and metrics across multiple locations

Our contractor-led approach

- Increases efficiencies
- Reduces overhead
- Maximizes velocity

Our Goal

VALUE PROPOSITION

We provide value to our customers by offering a streamlined, single-source program approach to capital construction.

We offer:

- One-stop, one owner process for projects of all types and sizes
- Process driven playbooks/runway approaches
- Improved project velocity and efficiency gains
- Performance dashboards
- Professional cost estimating with market cost validation
- Multiple locations managed under a single program
- Full design-build or a la carte services, as needed
- Global sourcing material cost savings
- Access to the resources and experience of our 22,000 global employees
- Transparency and open-book management
